

Cab Rider

Mobile App UI/UX Design

Project : Cab Rider App Design

Cab Rider is a modern taxi booking and ride-sharing mobile application designed to provide fast, reliable, and seamless urban transportation experiences. For this project, I was responsible for creating the complete UI/UX design including onboarding screens, live tracking system, ride booking flow, driver interaction screens, payment interface, and overall mobile app branding.

Client : Cab Rider

Service : UI/UX Design and Mobile App Branding
